Subject: [External] No Atlantic Coast pipeline thru NC please!

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Dear Governor Cooper, Please consider denying the pipeline permits for the Atlantic Coast Pipeline. and tell him to deny state permits for this fracked gas pipeline and support solar and batteries instead. We are needing progressive thinking and that is why I elected you. Please deny this climate-destroying pipeline and chose the most sustainable path for our children, grandchildren and the planet! There is a better way and a better technology. Report shows that solar combined with battery storage is the way of the future. In fact, a [large Australian battery installation by Tesla](#) just kicked in to cover two recent outages only weeks after being installed. We are counting on you to stand up and do the right thing. Thanks for your consideration, Janice Durand & Peter Goodman
